

PLAYGROUP SA
Playing, learning, supporting families

What makes a great Playgroup Venue?

If Playgroups were able to give a Wish List, it would look something like this:

- Inside and outside facilities
- A safe environment both inside and outside
- A light and airy space
- Toilets inside the facility with a change room / area for babies. Toilets need to cater for children as well as adults
- Kitchen facilities that can be blocked off from the play area and accessible from all play areas/rooms
- Secure storage space for toys and equipment (eg small chairs and tables, bikes, gym equipment etc)
- Fencing around outdoor areas
- Sand pits / digging areas should have covers
- Shaded outside areas
- Play equipment outdoors (play areas would ideally be designed to optimise opportunities for natural play, discovery, and quiet play)
- Adequate parking facilities with pedestrian access for parents / caregivers with young children and strollers
- Space for strollers outside the play space
