

What PlayConnect means to families

PlayConnect has been such a valuable program for our family... I instantly felt accepted into a group of people facing similar challenges that really understood the issues that ASD families face.

Attending PlayConnect playgroup this year has been amazing! It has helped us get through some very difficult times. We appreciate all the love, support, knowledge that has come our way. Thank you so much.

I am beyond grateful for your guidance and support this year. Watching you deal with our son has been extremely educational, for both him and me. I am filled with gratitude that I found your playgroup this year.

Connect Through Play

PlayConnect is a free, safe and supported playgroup for children aged 0-5 years on the Autism Spectrum, or with developmental delays or behavioural concerns and their families.

PlayConnect supports families at all stages of their journey.

“Unlike therapeutic interventions, PlayConnect encourages social interaction and peer-to-peer engagement for both the children attending and their families [the program] fills an important service gap for families.”

Australian Research Alliance for Children and Youth, 2020

PlayConnect is a whole family support, helping you to play, share, connect and grow together with your community.

We know parenting comes with many challenges and joys. Together we can support you to recognise and develop your child's unique abilities.

- Supporting social engagement through play for children from birth to 5 years.
- Creating lasting peer support networks for parents, caregivers, and siblings (up to 5 years).
- Taking the stress out of finding information and connecting to the right local support services.

Just bring yourselves and a snack. We'll take care of the rest.
