

Butterfly Painting

Children will need:

A3 paper

Coloured paints

Glitter (optional)

Fold a piece of A3 paper in half.

Put 3 dollops of paint in the middle along the crease line.

Fold back in half and use your hand to spread the paint out towards the other edge.

Open your picture to reveal your beautiful butterfly.

While the paint is still wet you may like to sprinkle on some glitter to make your butterfly sparkle!

Extension Idea: Once dry you could cut out your butterfly and tape a piece of string to the back and then tie the other end around a pop stick. Now, you can fly your butterfly around!

Learning Outcome 2: Children are connected with and contribute to their world
